AWARD MESSAGE

Josh has proven himself to be an invaluable member of the Letters and Documents ART. You never know what you are going to get when a junior developer joins your team, but I think I can speak for everyone when I say that the whole ART has been blown away by the knowledge and the passion he brings to the table every day. Every day you can find him in the Letters ART Support channel huddling with other developers and helping them to finish their stories early, teaching them about hooks and queries, and Javascript tips and tricks, and even as a senior developer, when I need a second set of eyes on something I'm writing for the UI, I know who to call. He truly has his thumb on the pulse when it comes to what's new with React and is always coming up with ways to improve our codebase and to bring it more in line with new standards and new technologies, and he's not afraid or too shy to tell you when there's a better way to do something. Excited to see where his skills and more importantly his wonderful mindset take him in the industry.
